

Global Environmental Policy

Tecomet is committed to continual improvement of its Environmental Management Systems and to adhere to all applicable laws and regulations. Tecomet will strive to minimize risk and protect our employees and the communities in which we operate by employing safe technologies and operating procedures as well as being prepared for emergencies.

The management and employees of Tecomet are dedicated to following the proper procedures to prevent pollution within our waterways, airways, and land. Top management supports this action by maintaining a safe and health conscious workplace for our employees, our neighbors and by promoting a safe environment for the communities that supports our business.

In addition, Top management is dedicated to reviewing and maintaining procedures that are appropriate to the nature, scale, and environmental aspects/impacts of its operations and providing a structure for setting and reviewing environmental objectives/targets and preventing pollution.
